Wood Pellet Warmth

This stove brings warmth to your home and flavor to your table.

What We Stand For

Comfort

Here at Thermokoz we believe in innovation as we believe in legacy. We've brought warmth to over hundred thousand homes with great pride and now, our aim is to bring that same warmth into your kitchen. Because we know that nothing warms the heart quite like sharing a home-made pie.

Enduring Quality

Inspired by sustainable communities that live in harmony with nature, we combine responsible design with our craftsmanship in shaping metal. As a family-owned company, we are committed to uncompromising quality and present a built-to-last product made to endure.

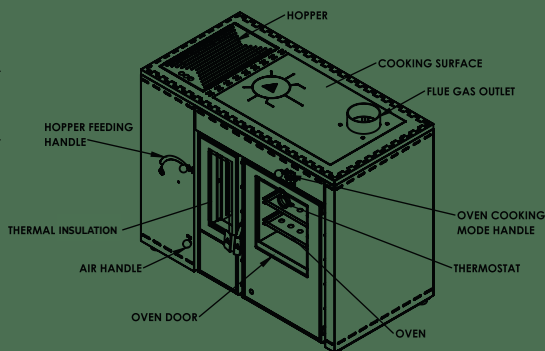

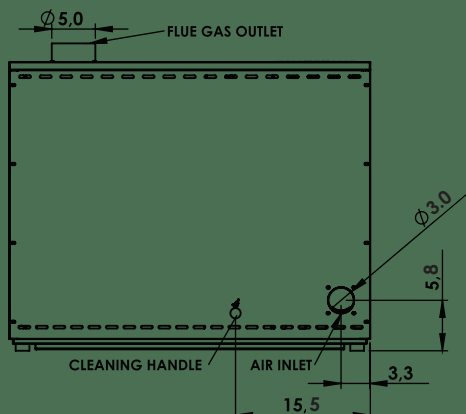

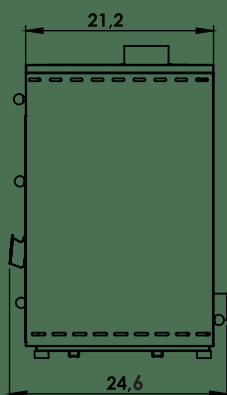

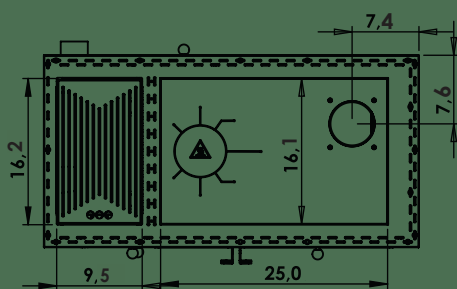

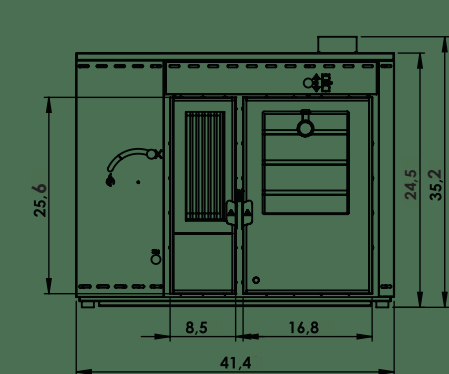

Sustainable by Nature

Heritage is important to us. And what is the biggest, most important inheritance, if not the Earth this beautiful planet we live on? That's why, at Thermokoz, we are working towards a brighter, less polluted future with our carbon-neutral pellet stoves.

Color Options:

Ash Cleaning	Simply pull the rear handle to collect ash neatly in the ash pan – quick, clean, and effortless.
Primary Use	Designed for efficient cooking and baking.
Electric Parts	None. Fail-proof, non-electric operation – reliable in any setting.
Convection Channel	Even heat distribution through channels on the sides, bottom, and top of the burn chamber ensures perfect cooking results.
Fuel Handle	Integrated hopper feeds pellets directly into the burn chamber for smooth, consistent combustion.
Cooking Baking Handle	Front handle lets you switch between oven + cooktop or cooktop-only modes with ease.
Robust Structure	Burn pot and frame are engineered to last, backed by the manufacturer's warranty.
